

Missouri String Project

Begin your child on the violin, viola or cello!

Your child had the opportunity to see a demonstration in school by the Missouri String Project. The MSP gives young students an opportunity to begin studying the violin, viola or cello, and to discover the joys and benefits of music.

All 3rd graders have the chance to choose one of the string instruments, and take part in the fun! Group lessons and string orchestra are taught by teachers-in-training from MU's School of Music, under the supervision of Leslie Perna, director of MSP.

Classes meet at MU on **either Monday or Wednesday from 4:10-5:00**, with all students meeting together for string orchestra on **Fridays from 5:10-6:00**. All classes will be in person, unless the Covid-19 situation changes.

If your child is interested in becoming a part of this exciting program of musical fun and learning, please go to our website at **music.missouri.edu/missouri-string-project**

There, you will find all the details of this unique program—from times and schedules of MSP lessons and orchestra, guides for choosing an instrument, renting the right size instrument and getting enrolled.

Don't let your child miss this opportunity for fun and learning! Join us on a musical adventure, and see what string playing is all about!
