Job ID: 55658

Location: Columbia

Full-Time

Hiring Department

The School of Music in the College of Arts & Science

Job Description

The School of Music in the College of Arts & Science invites applications for a Senior Recording Producer to join our vibrant and forward-thinking team. This is more than a job- it's a chance to shape the future of music technology and recording engineering education in a cutting-edge facility that celebrates creativity, innovation, and sonic excellence.

What You'll Bring and How You'll Make an Impact

You're not just a sound engineer - you're a creative problem-solver and collaborator who thrives in a fast-paced, artistic environment. You'll be responsible for capturing and producing high-quality audio recordings across a range of settings, including live performances, rehearsals, studio sessions, and special projects. Whether behind the console or on the stage floor, you'll ensure our performances are heard at their very best.

In this role, you'll:

- Record live performances and provide sound reinforcement
- Conduct studio sessions with students, faculty, and guest artists
- Manage signal flow, hardware setup, and equipment maintenance
- Edit, mix, and master audio for both archival and public release
- Archive records and maintain thorough documentation
- Provide technical support and training for faculty, staff, and students

To thrive here, you'll need a deep understanding of industry-standard tools and workflows, excellent communication skills, and a collaborative spirit. Your ability to work seamlessly with faculty, students, staff, alumni, and community partners will be key to your success.

This position is anticipated to begin in mid-summer.

Shift

This is a 40 hours/week job. Schedule is typically, Monday to Friday, 8 am to 5 pm, with wide flexibility on days/times due to performances and events.

Minimum Qualifications

A Bachelor's degree or an equivalent combination of education and experience and at least 2 years of experience from which comparable knowledge and skills can be acquired is necessary.

Preferred Qualifications

We are seeking a skilled, passionate, and highly accomplished individual with a bachelor's degree in audio engineering or a related field and professional experience in one or more of the following areas:

- Music/audio production and engineering
- Live sound engineering
- Microphone techniques
- Acoustics and recording consoles (analog and digital)
- Digital Audio Workstations (DAWs)
- Mixing, editing, and mastering in a variety of musical styles with a variety of tools and applications
- Sound design
